

# Out-of-Network Solutions

Driven by Technology and Experience

## Don't Leave Your Clients Unprotected from Out-of-Network Claims

Our Out-of-Network (OON) programs far outperform traditional vendors. Using our RBP solution, we leverage innovative technology to deliver fair reimbursements and provide full support for members.

This is an excellent step for a plan that is not quite ready for full network replacement. This allows your client to **experience the savings** from a referenced based methodology without fully implementing RBP. Our RBP solutions on non-network claims have resulted in proven savings with **nearly zero member disruption**.

## Included with RBP Out-Of-Network Coverage

- › Medical Claim Review
