

Cost Containment

Mitigating the financial impact behind unexpected and costly care

6 Degrees Health works with individual businesses and stop-loss carriers to find savings when catastrophic claims occur. This ensures quality care with accurate pricing and cost savings solutions.

6 Degrees Health will navigate the healthcare landscape to find containment opportunities that are often overlooked.

Clinical Audit

When a medical bill is flagged, 6 Degrees Health provides a clinical review; preliminary, full clinical, or chart to charge to find unbundling errors, billing errors, level of care, and necessity of care.

Provider Negotiations

Claims will be negotiated as a single case agreement (ad hoc) or develop into an ongoing direct partnership with a provider or hospital facility.

Claims Repricing

A process that utilizes a metric-based repricing tool, direct contracts, and Usual, Customary, and Reasonable (UCR) to determine allowable or recommended provider reimbursement.

Transplant and Specialty

Negotiated bundled rates for all-inclusive care pertaining to transplant or catastrophic circumstances through flat access fees, transplant repricing, and all specialty services that include direct contracts and negotiated rates for cancer, cardiac, ortho, dialysis, etc.

Stop-Loss Support

Catastrophic claim negotiation, treaty repricing, and laser consultation.
