

Out-of-Network Solutions

Driven By Technology And Experience

Don't leave your clients unprotected from large out-of-network claims

Our out-of-network (OON) solution far outperforms traditional out-of-network vendors. Using our RBP experience, we don't start with billed charges; we use bottom-up pricing.

This is an excellent step for a plan that is not quite ready for a full network replacement. This allows your client to experience the savings from a network replacement without fully implementing RBP. Our RBP solutions on non-network claims have resulted in proven savings with nearly zero member disruption.

Is Your Current OON Solution Working?

Current OON Vendor

Billed Charges OON Claims	\$500,000
Allowed % of Billed	\$375,000
Fee 25% of Savings	\$31,250
Total Claim	\$406,250
