

Payment Integrity

Comprehensive Cost Containment

6 Degrees Health provides detailed clinical reviews that evaluate every line item to check for errors and inconsistencies. Our reviews are conducted by industry leading clinical experts, offering the highest quality solution with the best savings.

Superior Payment Integrity Solution

We take a service-first approach to our clinical reviews to ensure accuracy in billing and fair payments. Our unique pre-payment “clean claim” review process extends beyond typical clinical reviews and evaluates every line item to identify and remove billing errors and inconsistencies. Our clinical experts conduct the reviews in accordance with industry standard guidelines and use MediVI, our proprietary data technology, to support fair reimbursement rates and confirm that only accurately billed charges are paid prior to any other discount application. With our customer-centric focus, extensive cost containment experience, clinical expertise, and evidence-based data, we deliver superior service and optimal savings.

Why Are Clean Claim Reviews Important?

The error rate per claim is greater than 10% and 100% of inpatient claims have billing errors - making claim reviews paramount.

Our clinical reviews are completed by registered nurses to ensure each billed line item, including routine supplies and services, pharmacy charges, laboratory, level of care, and implants are correct. This detailed review removes erroneous line items and verifies billing accuracy. The clean claim review process identifies errors on the claim which cannot be balance-billed to the member. Engagement in a pre-payment review program can reduce stop-loss premiums. 6 Degrees Health further supports plans by handling all disputes and appeals with the provider.

Which Claims Are Applicable For Review?

Unpaid or partially paid claims, in network or out-of-network claims, billed charges greater than \$100,000 or claims that exceed an outlier threshold can all be reviewed.

Payment Integrity
Pre-Payment
Clean Claim Review / Itemized Bill Review
Greater than 10% savings on each claim
Reviews completed within 5-7 business days
Full support through dispute and appeal resolution
No balance billing
